Dear Vacation Rental Property Owner:

Call Logic is proud to offer our new service, **NetCall**, exclusively to the vacation rental market. **NetCall** provides unlimited domestic long distance service with generous blocks of international calling to more than 40 countries for only **\$19.95** per month.* This new service uses VoIP (Voice Over Internet Protocol) and is simple to implement and use.

**Best of all, you can deactivate NetCall during the months you don't use it.
So, you don't pay for what you don't use!**

Benefits to the vacation rental property owner are:

- ◆ No special telephone or equipment needed
- ◆ No change to your local telephone service
- ◆ No long distance carrier needed
- ◆ No broadband required
- ◆ Service can be deactivated in the off season – you only pay for the months you use
- ◆ No credit card needed by you or your guests to place long distance calls
- ◆ Unlimited long distance calling within the United States and to over 40 countries *
- ◆ No term commitment or contract
- ◆ No cost to activate and deactivate the service

NetCall can provide extra marketability for your unit:

NetCall can increase the number of rentals you book each season and increase your bottom line.

If your property is rented seasonally, you can use NetCall for five months for just **\$99.75**. When potential renters surf the net and compare your unit with comparable ones that do not offer **free** long distance, they will choose your unit first. **Even if they have a cell phone**, they will choose your unit because you are providing minutes at **no charge**. So, if you book one additional rental per season you have more than paid for the cost of NetCall and increased your bottom line.

How do I sign-up for NetCall service?

Go to our web site at www.calllogic.net and click on “**Sign-up Today**”
If you have questions, click on “**How to Sign-up**”

* Subject to acceptable use policy located on www.calllogic.net
